

# AYOUB HANNOUCH

## PROFESSIONAL SUMMARY

I am a Full-Stack Developer with a strong background in web development, specializing in creating dynamic, efficient applications. I have extensive experience with JavaScript, React, Next.js, TypeScript, Express.js, and Node.js, delivering responsive, user-focused websites and applications. My expertise lies in developing scalable web solutions with a focus on performance and user experience.

## WORK HISTORY

**Full Stack JS Developer**, August 2023 - Present  
**AVS Logistic - Agadir**

- Full-stack development using React Typescript, Next.js, Node.js, MongoDB, and Express.
- Implemented JWT for secure authentication, prioritizing user privacy and data security.
- Optimized performance, scalability, and reliability for SaaS booking systems.
- Developed and integrated RESTful APIs and real-time features using Socket.io.
- Deployed and maintained applications using Vercel.
- Led the introduction of CI/CD pipelines to streamline development.

**Front-End Developer**, January 2023 - August 2023  
**AVS Logistic - Agadir**

- Focused on front-end development using React, Next.js, and Tailwind CSS.
- Built responsive, high-performance, and SEO-optimized web applications.
- Integrated state management using Zustand and contributed to user-centric design.

## PROJECTS

**3AMANDES**,  
[www.3amandes.com](http://www.3amandes.com)

- Developed a Moroccan food delivery service platform with a comprehensive admin system for product and order management.
- Integrated payment methods including Revolut and TPE.
- Technologies: Next.js, TypeScript, MongoDB, Tailwind CSS, NextAuth, Socket.io, AWS S3

**IPAF**  
[www.ipaf.ma](http://www.ipaf.ma)

- Developed a comprehensive website for IPAF, a paramedical training school, showcasing their services and courses. The site features contact and registration forms for prospective students. Implemented an admin panel with full CRUD functionality to manage courses and student data.
